General Instructions

Purpose of Form

Use Form 1125-A to calculate and deduct cost of goods sold for certain entities.

Who Must File

Filers of Form 1120, 1120-C, 1120-F, 1120S, 1065, or 1065-B, must complete and attach Form 1125-A if the applicable entity reports a deduction for cost of goods sold.

Inventories

Generally, inventories are required at the beginning and end of each tax year if the production, purchase, or sale of merchandise is an income-producing factor. See Regulations section 1.471-1. If inventories are required, you generally must use an accrual method of accounting for sales and purchases of inventory items.

Exception for certain taxpayers. If you are a qualifying taxpayer or a qualifying small business taxpayer (defined below), you can adopt or change your accounting method to account for inventoriable items in the same manner as materials and supplies that are not incidental.

Under this accounting method, inventory costs for raw materials purchased for use in producing finished goods and merchandise purchased for resale are deductible in the year the finished goods or merchandise are sold (but not before the year you paid for the raw materials or merchandise, if you are also using the cash method).

If you account for inventoriable items in the same manner as materials and supplies that are not incidental, you can currently deduct expenditures for direct labor and all indirect costs that would otherwise be included in inventory costs. See the instructions for lines 2 and 7.

For additional guidance on this method of accounting, see Pub. 538, Accounting Periods and Methods. For guidance on adopting or changing to this method of accounting, see Form 3115, Application for Change in Accounting Method, and its instructions.

Qualifying taxpayer. A qualifying taxpayer is a taxpayer that, (a) for each prior tax year ending after December 16, 1998, has average annual gross receipts of \$1 million or less for the 3 prior tax years and (b) its business is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2001-10, 2001-2 I.R.B. 272.

Qualifying small business taxpayer. A qualifying small business taxpayer is a taxpayer that, (a) for each prior tax year

ending on or after December 31, 2000, has average annual gross receipts of \$10 million or less for the 3 prior tax years, (b) whose principal business activity is not an ineligible activity, and (c) whose business is not a tax shelter (as defined in section 448(d)(3)). See Rev. Proc. 2002-28, 2002-18 I.R.B. 815.

Uniform capitalization rules. The uniform capitalization rules of section 263A generally require you to capitalize, or include in inventory, certain costs incurred in connection with the following.

- The production of real property and tangible personal property held in inventory or held for sale in the ordinary course of business.
- Real property or personal property (tangible and intangible) acquired for resale.
- The production of real property and tangible personal property by a corporation for use in its trade or business or in an activity engaged in for profit.

See the discussion on section 263A uniform capitalization rules in the instructions for your tax return before completing Form 1125-A. Also see Regulations sections 1.263A-1 through 1.263A-3. See Regulations section 1.263A-4 for rules for property produced in a farming business.
